Attention: Charlie Letourneau

Dear Charlie,

The importance of choosing the right builder for your new dream home cannot be underestimated. While we knew in the beginning that you and your company were the perfect fit for us, the proof lies in the finished product.

Our involvement with Centennial Homes Ltd. and Charlie Letourneau took us from concept to design to plans and through construction in the most professional and competent manner we could imagine. It seems everyone has horror stories to tell about their new home construction, but not us. Centennial Homes is truly a hands on company ensuring the final product is perfect and to a level of exacting detail that few builders can offer. Thank-you Charlie; you were right when you said in the beginning "this project will be an enjoyable experience". You can count on the highest recommendations from us.

Yours truly,

Andrew & Catherine Knight
